Dominant frequency, Y (vertical), non-preferred hand
Welch t-test: p = 0.460 · F-test: p = 0.848
black line = mean; Shapiro-Wilk p = 0.98 / 0.69
Dominant frequency, Y (vertical), preferred hand
Welch t-test: p = 0.891 · F-test: p = 0.597
black line = mean; Shapiro-Wilk p = 0.85 / 0.50
Dominant frequency, X (lateral), non-preferred hand
Welch t-test: p = 0.768 · F-test: p = 0.496
black line = mean; Shapiro-Wilk p = 0.98 / 0.72
Dominant frequency, X (lateral), preferred hand
Welch t-test: p = 0.893 · F-test: p = 0.441
black line = mean; Shapiro-Wilk p = 0.76 / 0.93
